Tokyo General Information

1. Facts

■ Climate and clothing

Average Monthly Temperature and Precipitation

Spring (March-May)

There may be days in March when you need a heavy jacket, but the cold eases considerably in April and by May it can be warm enough for short sleeves during the day. Peak cherry blossom season runs from late March through early April.

Summer (June-August)

The rainy season lasts from late June through around mid-July, with frequent rain and high humidity. After the rains, July and August usher in a steady stream of midsummer heat with temperatures over 30°C, including especially hot and humid days when the temperature rises above 35°C.

Autumn (September-November)

The temperature can rise over 30°C even in September, but both temperature and humidity begin to fall gradually. The peak season for viewing fall foliage starts in mid November. It is recommended to bring a heavy jacket when you come to Tokyo in November.

Winter (December-February)

Constant low temperatures make a jacket and coat indispensable, and it occasionally snows even in the city center.

■ Money, tipping

Currency

Japan uses yen (Japanese: 円, symbol: ¥, code: JPY). Coins come in 1, 5, 10, 50, 100, and 500-yen denominations while bills come in 1,000; 2,000; 5,000; and 10,000-yen denominations. As of August 2022, the exchange rate is approx. 130-135 yen to the US dollar and approx. 135-140 yen to the Euro.

Credit cards

International credit cards such as American Express, Visa, Diners Club, and MasterCard can be used at most banks, hotels, inns, and stores. Although not accepted at as many locations as these cards, China UnionPay can also be used. However, some stores do not accept any credit cards, so it is a good idea to have some cash on hand.

Cash advances (ATM)

Roughly 32,000 Japan Post Bank ATMs located throughout Japan, as well as over 26,000 Seven Bank ATMs installed in 7-Eleven convenience stores, offer cash advances for credit cards issued overseas. Most 7-Eleven convenience stores are open 24/7. Logos displayed on or near the ATMs indicate which credit cards can be used.

Tipping

It is not necessary to tip for service in Japan at places such as restaurants, bars, taxis, airports and hotels. However, hotels and some restaurants indicate an additional service charge on their bills or menus, respectively.

■ Cashless payment

In accordance with government policy, cashless transactions are promoted in large stores, restaurants, and shopping malls and can be used in many independent stores.

■ Free Wi-Fi

From cafés to train stations to airports, an increasing number of locations in Tokyo offer high-speed Internet connection via free Wi-Fi. Wi-Fi logos are displayed where services are available.

■ Electricity

Voltage in Japan is 100 V, while frequency varies by location: 50 Hz in eastern Japan including Tokyo and 60Hz in western Japan. A 2-flat-pin type socket is used.

■ Smoking

In Tokyo, smoking is prohibited indoors at restaurants, drinking establishments, accommodations and other facilities used by many people, and only permitted in dedicated smoking rooms inside buildings (effective from April 2020). Smoking is also prohibited outdoors – on the streets and in parks in some areas of Tokyo. Please smoke in designated areas only.

■ Language

Japanese is the official language of Japan and English is widely spoken in Tokyo. Information desks at various facilities are often staffed with people who can speak English.

■ Visa

Japan has a visa waiver agreement with 68 countries and regions, under which delegates can enter the country for a short-term stay simply with their valid passport.

*Due to the novel coronavirus (COVID-19), the Visa Exemption Arrangements with 68 countries and regions are subject to change. For more information, please visit the website of the Ministry of Foreign Affairs of Japan:

2. Getting There & Exploring the City

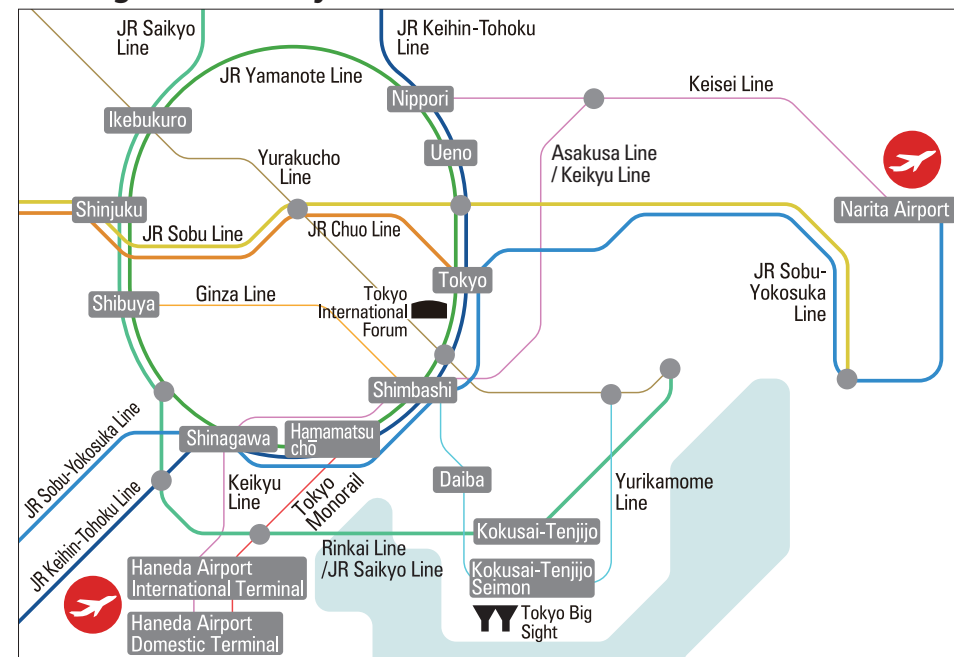

■ Transportation / Airport

A well-developed transportation network allows easy and convenient movement in and around the city, so you can come and go almost anywhere just by trains, subways or buses.

Average Time to Key Destinations from Airports

Getting around Tokyo

A network of train lines operated by JR East Japan and the subway lines of Tokyo Metro and Toei link stations around Tokyo. Symbols and signage at the stations are multilingual in English, Korean and Chinese. Train timetables are located on the platforms and are very reliable since trains in Tokyo run on time.

■ Suica and Pasma cards

Smart cards Suica and Pasma can be used on almost all rail and bus lines in the Tokyo metropolitan area, and are also accepted by a growing number of taxis. Suica IC cards are available for purchase at JR stations. Welcome Suica cards which require no deposit and expire in 28 days are also available. Pasma cards are available at subway, private railway stations or bus depots. You can also use these cards for shopping as electronic money at an increasing number of registered shops.

Suica

Pasma

<https://www.pasmo.co.jp/visitors/en/normalpasmo>

■ Taxis

In addition to queuing for a taxi at a taxi stand, you can also flag down an unoccupied taxi on the street by raising your hand. The taxi's rear left-side door will open for you automatically, so there is no need to open it for yourself. Fares are paid at the conclusion of the ride, but some taxis cannot accept smart cards or credit cards, so be sure to check before you get in.

■ Taxi fares

In the 23 wards of Tokyo, Musashino city and Mitaka city, the initial fare of 410 yen covers the first 1.052 kilometers, beyond which 80 yen is added for each additional 237 meters. Many taxis have adopted a fare system based on time and distance that also adds an 80 yen surcharge for each 90 seconds traveling at less than 10 kilometers per hour.

4. Things to Do & See

■ City Tour: Asakusa

This location is home to one of the most popular tourist spots in Tokyo, Tokyo Skytree Town®, which has the world's tallest free-standing broadcast tower. The area around the tower is complete with shopping and entertainment facilities. In contrast to the cutting-edge tourist attractions, atmospheric Sumida and Oshiage are crowded with people enjoying the sights of *shitamachi* areas, the traditional commercial and working class neighborhoods of Tokyo. Just across the Sumida-gawa river is the district of Asakusa, where you will find the Kaminari-mon gate with its huge red lantern, and the Senso-ji Temple, both landmarks from the old days. Have a pleasurable experience shopping at the shopping streets including Nakamise, visiting sightseeing spots in a rickshaw, or enjoying the cherry blossoms during spring and fireworks in the summer.

■ City Tour: River Cruise

Tokyo offers a diversity of cruise types, from regular services convenient for sightseeing and traveling, to one-off services paired with seasonal events, and even yakatabune services featuring meals and shows. Select the ideal cruise to enjoy according to purpose or situation.

■ Cultural Program: Dress in Kimono/Yukata

Kimono, the beautiful national costume of Japan also called *wafuku*, literally meaning "Japanese-style clothing," has won popularity beyond its birthplace. The garment is made with various materials, such as cotton and silk, and in different styles for different purposes, from formal to casual. Few people dress in kimono on a daily basis today, but the gown remains essential to traditional Japanese culture and is worn on special occasions like weddings and New Year celebrations. Yukata is a variant of the kimono made with a lighter fabric. The stylish gown comes in diverse colors, patterns, and materials. And compared to the kimono, it's easier to put on.

Both kimono and yukata give the wearer a taste of Japan. Although it's possible to dress yourself, professional services are available, too. It's worth creating the opportunity to have a photograph taken or stroll the streets of Tokyo wearing a kimono or yukata.

■ A Different Flavor of Cultural Program: Sake Tasting

Tokyo also has an exceptional variety of local Japanese rice wine brands, better known as "sake." For a real taste of Tokyo enjoy a sake brewery tour with sake tasting in Ome or Higashimurayama, in the western part of Tokyo. The sake brewery Ozawa Shuzo in Ome offers spectacular views of the surrounding mountains and valleys from its beautiful location. Sawanoji, one of their signature brands, is popular for its clean, crisp flavor and refined aroma. Toshimaya Shuzo is another well-known sake brewery in Higashimurayama, established in 1596. Their signature sake Kinkon, which has won numerous awards, is dedicated to Meiji Jingu and Kanda Myojin Shrines as their sacred sake.
